

Introduction

Expectations for this course?

Prelims

- Kinematic vs Dynamic controllers

3d player controller (rolling ball, hovercraft, platformer)

Midterms

Interactions, friction, forces and basic AI

- Some sort of puzzle game or stealth game

Soft body dynamics

- Some sort of soft body simulation

Semi Finals

Mechanical constraints

- physics based puzzle interacting with machinery

Finals

Optimization and profiling

- any game of any genre, with rigid bodies, optimized
